

PRODUCT DATA SHEET

Product ID RGK10

Description: 19mm Double Steel Action Snaphook
with captive eye

Accredited to: EN 362: 2004

Material: Steel

Plating: Zinc

Gate opening: 19mm

External length: 144mm

Closure type: Double Action

MBS: 23kN

Weight: 275g

The RGK10 is an alternative option to a twist-lock karabiner.

The double action/self-closing gate opening of the RGK10 means that this item is normally used for clipping directly into a D ring on a harness. It has a forged profile with captive eye for permanent fixture to the lanyard.
