

Honeywell BW™ Ultra Multi-Gas Detector.

Extra Detection. Ultra Protection.

At Honeywell, we always put your safety where it should be – first. With Honeywell BW[™] Ultra, our new portable five-gas detector, you will be able to do the same for your workers. Designed specifically for sampling and monitoring confined spaces, before and after entry, Honeywell BW[™] Ultra has enhanced sensor technology, visibility on gas readings, comfort and connectivity. This makes it the most reliable and user-friendly way to prevent a safety incident.

Extra Gas Detection. Extraordinary.

The Honeywell BW[™] Ultra complies with all safety regulations in place by detecting your required gases. Furthermore, it goes the extra mile by offering you the option to choose a fifth sensor from a list of gases – for added protection at work.

The Honeywell BW[™] Ultra is the first gas detector on the market to feature the *1-Series* sensor, with fast response, reliable performance and long life, even in extreme working conditions. That means high accuracy and lower costs.

FEATURES & BENEFITS

Ultra Easy

- Tamper-proof operation with one-button operation
- Intuitive LCD icons for quick decision-making
- Easy service and maintenance

Ultra Visibility

- Intuitive large dot matrix display giving clear readings
- Smart Gas layout for clear sensor reading
- Hole Watch Mode for quick decision-making
- IntelliFlash[™] and also Reverse IntelliFlash[™] for clear compliance

Ultra Rugged

- Honeycomb-designed housing for extra ruggedness
- Protection designed in the right place
- Scratch-resistant display protector

Ultra Connected

- Honeywell Connected Worker compatible
- Honeywell TouchConnect[™] Technology for activating a feature
- Honeywell SafetySuite for unit configuration and reporting

 H_2S

LEL

SO₂

HCN

Ultra Comfortable

- Ergonomically designed for easy use
- Light yet rugged design
- Fits in the hand for easy sampling

Ultra Quick

- Quick responding sensor technology
- Quick decision-making because large display
- Quick bump & calibration with IntelliDoX system

Caution – the LEL IR combustible gas sensor option used in Honeywell BW[™] Ultra cannot detect certain combustible gases, including hydrogen and acetylene. The application should be reviewed to ensure the Honeywell BW[™] Ultra can provide adequate detection. For more information, please contact HoneywellAnalytics (www.honeywellanalytics.com).
