

## KEEP YOUR WORKERS SAFE

While Reducing Costs and Increasing Operational Uptime

At Honeywell, we always put your safety where it should be – first. With **BW Ultra**, our new portable five-gas detector, you will be able to do the same for your workers. Designed specifically for **sampling and monitoring confined spaces**, before and after entry, BW Ultra has unmatched sensor technology, visibility on gas readings, comfort, and connectivity. This makes it the most reliable way to **prevent a safety incident** – meaning ultra confidence for your workers in confined spaces.

### AND THERE'S MORE...

**BW Ultra** helps your company turn safety into a strategic advantage – by reducing costs, increasing operational uptime, and driving productivity.

#### SAFETY

#### FASTER DECISION MAKING

**Large Scratch-Resistant Screen / Hole-Watch Mode / Smart-Gas Layout** – You can clearly see how fast each gas level is climbing, so you can correct small problems before they cause worker injury, evacuation, or complete shutdown.

#### TIME SAVING

#### STREAMLINED COMPLIANCE AUDITING

**Intelliflash** – Flashing amber non-compliance indicators warn that the detector has not been bump-tested according to schedule. Also, there are daily full-function self-tests of sensors, battery status, circuit integrity, and audible/visual alarms.

#### JOB SATISFACTION

##### LESS STRAIN

**Ergonomic design** – We designed the BW Ultra to fit the shape of your hand, with a comfortable weight and a slimmer profile than other five-gas detectors – to prevent fatigue and increase productivity.

#### PRODUCTIVITY

##### USER CONFIDENCE

**Built for all environments** – BW Ultra delivers consistently accurate readings, standing up to extreme temperatures, pressure, humidity, and other environmental extremes. This way you can rest assured that it's always there to protect you so you can focus on your job.

**BW Ultra** offers you real-time situational awareness in confined space monitoring – so you can make fast decisions to protect your workers inside. With unmatched sensor technology, visibility on gas readings, and connectivity, **BW Ultra minimizes your cost of ownership and maximizes your peace of mind.**
