

Rollable rescue device designed for confined space. Without a reinforced structure, it allows the stretcher to be extremely flexible to enter confined and narrow spaces. It can be used in conjunction with the ROLLY as an immobiliser during vertical use.

## Material Specification

Stretcher: PE

Handles: Nylon

## Dimensions

Weight: 5KG

Length: 135cm

Width: 60cm

*HALF ROLLY being used in conjunction with the ROLLY stretcher*

## Features

- ◆ Unique structure allows for flexibility during use, storage and transportation
- ◆ Hanging kit for vertical transportation
- ◆ Easy maintenance with replacable components
- ◆ Side handles for transportation
- ◆ Can be used in conjunction with the **ROLLY** stretcher
