

# ROLLY ROLLABLE STRETCHER

GSE1360

Rollable medical device designed for confined space rescue; suitable for the evacuation of injured personnel from tight and complicated situations. Being extremely flexible allows the device to be used in complex environments, and also to be stored and transported within a bag.

## Material Specification

Stretcher: PE

Handles: Nylon

## Dimensions

Weight: 7.3KG

Length: 245cm

Width: 60cm

## Features

- ◆ Hanging kits for vertical transportation in wells or tunnels
- ◆ Hanging kits for horizontal winching by a tripod
- ◆ Increased thickness providing greater resistance to rubbing, user protection and greater stability during use
- ◆ Easy maintenance with replaceable components
- ◆ Can be used in conjunction with the **HALF ROLLY** stretcher
- ◆ Side handles for easy transportation
